

Exemptions from General Guitar Gadgets Licensing Agreement

Version 2006September08

The PCB and layout designs posted on this site that are from the **geofex.com** and **runoffgroove.com** sites are copyrighted materials and are not eligible for the General Guitar Gadgets licensing agreement. These projects are clearly documented as such. If you have any questions about the origin of a project, please contact us at info@generalguitargadgets.com

For-profit builders interested in selling pedals based on, in whole or in part, runoffgroove.com projects should contact runoffgroove.com for more information.

You must contact the site host at geofex.com if you are interested in licensing any of the geofex PCB designs.

Unless you have an agreement with runoffgroove or geofex, there is a purchase limit of 5 PCBs per customer for any given circuit from those sources.
